DETAILED ACTION

Allowable Subject Matter

1. Claims 26-97 are allowed.
2. The following is an examiner's statement of reasons for allowance: with respect to claims 26-58, patentability resides, at least in part, in the two sides comprising a lengthwise split and at least one bulge on the top or bottom and aligned with the split such that the bulge engages a guide in the chassis, in combination with the other limitations of the claims; with respect to claims 59-92, patentability resides, at least in part, in the handle being pivotally mounted to the crosspiece such that an end of the handle engages the chassis to secure and/or disengage the bracket in the chassis, in combination with the other limitations of the claims; with respect to claims 93-97, patentability resides, at least in part, in the handle being pivotally movable between a first, second and third position and the crosspiece, in combination with the other limitations of the claims. The prior art of record fails to teach and/or fairly suggest such limitations as claimed. Therefore, claims 26-97 are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please note the brackets of Paul et al. (5765933), Darden et al. (4941841), and Brown, JR. (3899794):
